PROJECT MANAGEMENT PROFESSIONAL

PMI[®] Authorized
PMP[®] Exam Prep Course.

WHAT IS PROJECT?

A project is a temporary endeavor designed to produce a unique product, service, or result with a defined beginning and end (usually time-constrained, and often constrained by funding or staffing) undertaken to meet unique goals and objectives, typically to bring about beneficial change or added value.

The temporary nature of projects stands in contrast with business as usual (or operations), which are repetitive, permanent, or semi-permanent functional activities to produce products or services.

WHAT IS PROJECT MANAGEMENT?

Project management is the application of knowledge, skills, tools, and techniques to project activities to meet the project requirements.

Effective project management helps individuals, groups, and public and private organizations to:
